BPA free • PVC free • phthalate free

eco-friendly

biodegradable

natural rubber

non-toxic paint

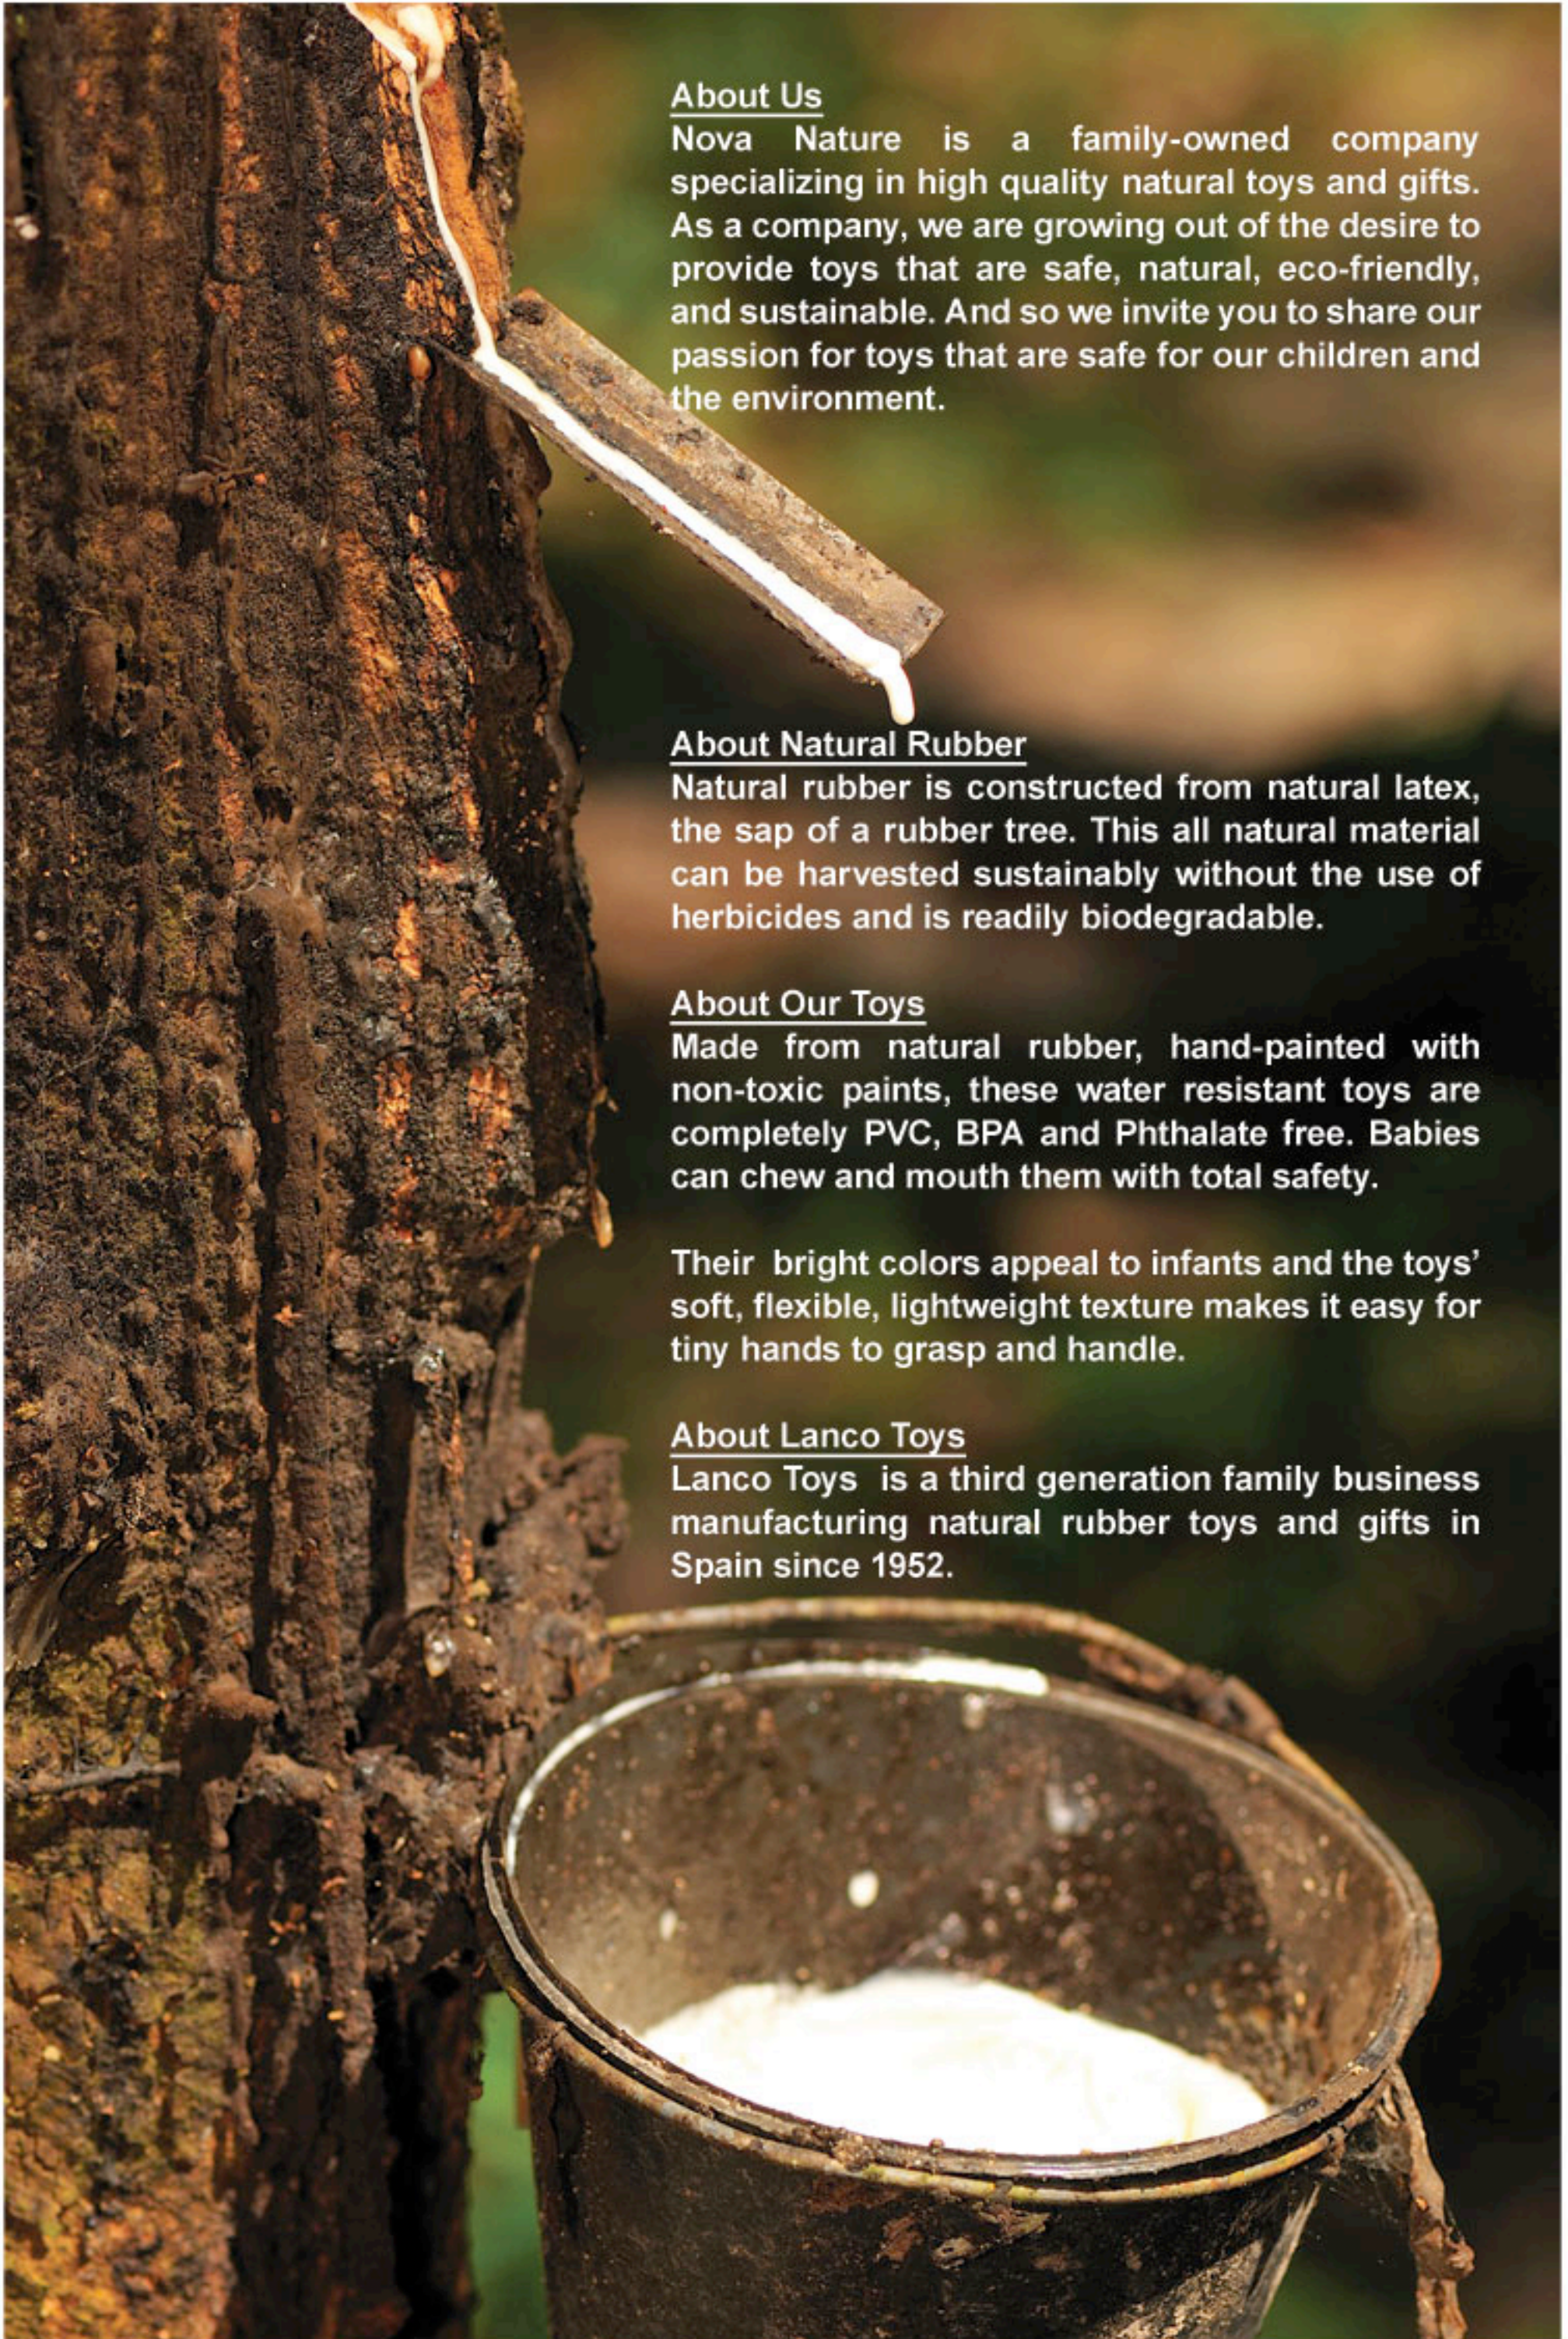

hand painted

Made in Spain  
Since 1952

age 0+

About Us

Nova Nature is a family-owned company specializing in high quality natural toys and gifts. As a company, we are growing out of the desire to provide toys that are safe, natural, eco-friendly, and sustainable. And so we invite you to share our passion for toys that are safe for our children and the environment.

About Natural Rubber

Natural rubber is constructed from natural latex, the sap of a rubber tree. This all natural material can be harvested sustainably without the use of herbicides and is readily biodegradable.

About Our Toys

Made from natural rubber, hand-painted with non-toxic paints, these water resistant toys are completely PVC, BPA and Phthalate free. Babies can chew and mouth them with total safety.

Their bright colors appeal to infants and the toys' soft, flexible, lightweight texture makes it easy for tiny hands to grasp and handle.

About Lanco Toys

Lanco Toys is a third generation family business manufacturing natural rubber toys and gifts in Spain since 1952.
